Cyclone START UP	This class is aimed at anyone who wants a bit more support to get started on the IC7 bikes. This could be because: You have a medical condition that means you would like extra guidance and support / would like to work at a moderate intensity, or you would feel more comfortable starting at a session where there is someone there to assist. This may be with a view to moving on to other sessions when you are happy to do so or long-term adherence.
Cyclone Beginner	This session has been designed to introduce you to the bike before you attend a class. If you are brand new or simply want a refresher then this session is an ideal one to attend. You'll learn how to set your bike up correctly for ultimate comfort, perform a fitness test and experience a short Coach By Colour workout so that you can learn how the bike works. We recommend attending this session to give you the best experience possible in your first class.
